SUMMARY

Frontend Developer with a strong passion for transforming designs into responsive and engaging user experiences, eager to expand into full-stack roles and explore other coding disciplines. I have a solid foundation in HTML, CSS/Tailwind, JavaScript/TypeScript, React, and Next.js. I leverage my Software Quality Assurance experience to write highly maintainable code and approach development from a user-centric perspective, ensuring superior viewing and interaction quality. Possesses foundational backend experience in C#, .NET, and Firebase. I am a committed learner dedicated to continuously overcoming new hurdles and developing innovative solutions.

WORK EXPERIENCE

Arielus Software Inc. (formerly 3AG Business Solutions Inc.)

June 2025 – July 2025

Software Quality Assurance Intern

Cebu City, Cebu

- **QA & User-Centric Design:** Applied client-centric testing to identify bugs and UX issues, a perspective I now use to enhance frontend usability and code quality.
- **Testing & DevOps:** Performed regression and smoke testing to ensure stability; utilized Azure DevOps for efficient bug tracking and lifecycle management.
- **Automation:** Developed automation scripts to streamline data entry processes, significantly reducing manual effort and enhancing efficiency.

EDUCATION

Cebu Institute of Technology – University

Expected: May 2026

B.S. Computer Engineering

Cebu City, Cebu

- Grades: Consistent 4.0 GPA
- Former Head of Research and Development (ICpEP.SE)

SOFTWARE PROJECTS

SAGIP PILIPINAS

- Led the frontend development, creating key features including the Home Page, Map Page, Request Aid forms, user authentication (Login/Registration), donation forms, and navigation components.
- Engineered the site's routing architecture and ensured full responsiveness across all user interfaces.
- **Tech Stack:** Next.js, Tailwind CSS, TypeScript, Visual Studio Code, Github.

SWIFT SAIL

- Designed and developed the UI/UX for the Home page, user profile management system, and primary navigation components.
- Implemented client-side routing and dynamic modal interactions.
- **Tech Stack:** React.js, JavaScript, CSS, Visual Studio Code, Github.

QUICKSHOP

- Independently designed, developed, and implemented a full-stack Point-of-Sale (POS) system using C# and .NET.
- Built features including sales processing, inventory management, sales reporting, and a user self-serve kiosk. This project provided hands-on experience with software development lifecycle, from concept to deployment.
- **Tech Stack:** C#, .NET, SQL, Visual Studio 2022, Github.

CERTIFICATIONS, SKILLS & INTERESTS

- **Certification: Modern JavaScript From The Beginning 2.0** (Udemy, 40 hrs)
 - Focus: ES6+, OOP, Asynchronous JS, DOM manipulation, and patterns supporting React/Next.js.
- **Languages/Libraries:** C#, JavaScript, TypeScript, Python, SQL, HTML, CSS; .NET, React.js, Next.js, Node.js, Tailwind CSS
- **Databases/Tools:** SQL, Firebase, MS Access; Git, Github, Visual Studio 2022/Code, DevOps
- **Soft Skills:** Strategic Planning; Critical Thinking; Communication; Team Player; Organizational Skills; Problem Solver
- **Interests:** Gaming, Dancing, Frisbee, Soccer, Swimming, Hiking, and Running.
